

	Assignment No. 01 (Graded)Semester: Summer 2024 CS304P– Object Oriented Programming (Practical)	Total Marks: 20 Due Date: 29 August, 24
--	--	--

Objective

After completing the assignment, the student will be able to use different types of constructors and destructor.

Uploading instructions:

- Your assignment should be in .CPP format (Any other formats like scan images, PDF, zip, doc, rar and bmp etc. will not be accepted).
- Save your assignment with your ID (e.g. bc0000000000.CPP).
- No assignment will be accepted through email.

Rules for Marking:

It should be clear that your assignment will not get any credit if:

- The assignment is submitted after the due date.
- The submitted assignment does not open, or execute or the file is corrupted.
- Your assignment is copied from the internet, handouts, or any other student.

(Strict disciplinary action will be taken in this case).

Lectures Covered:

This assignment covers **Labs # 1-4**

Note: Submit your solutions in .CPP file.

Assignment No. 1

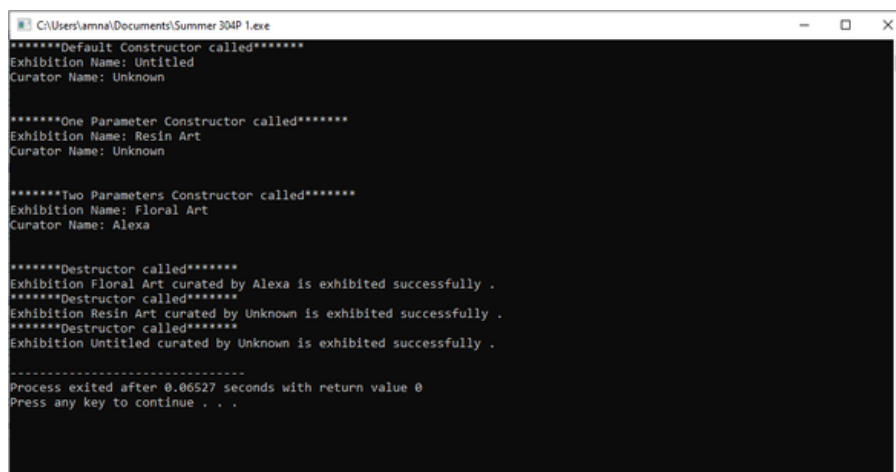

An art gallery hosts various art exhibitions throughout the year, where each exhibition shows artwork from different artists. This art gallery used a software system to manage the exhibitions by tracking displayed artwork, adding or removing artwork and viewing exhibition details.

The Art Exhibition Management System is designed to manage art exhibitions efficiently. It helps the gallery staff to manage the details of each exhibition, including the artworks, their details, and the responsible curator. The system keeps sensitive data private while providing public methods for interaction.

As a student of OOP (Object oriented programming) course you are required to write a C++ program to implement the above scenario using concept of Class. The class must have:

1. Data members
2. Default constructor
3. Parameterized constructor (one and two argument)
4. Destructor.

Sample output for the program is given below, your solution output should be like this.

```
C:\Users\amna\Documents\Summer 204P 1.exe
*****Default Constructor called*****
Exhibition Name: Untitled
Curator Name: Unknown

*****One Parameter Constructor called*****
Exhibition Name: Resin Art
Curator Name: Unknown

*****Two Parameters Constructor called*****
Exhibition Name: Floral Art
Curator Name: Alexa

*****Destructor called*****
Exhibition Floral Art curated by Alexa is exhibited successfully .
*****Destructor called*****
Exhibition Resin Art curated by Unknown is exhibited successfully .
*****Destructor called*****
Exhibition Untitled curated by Unknown is exhibited successfully .

.....
Process exited after 0.06527 seconds with return value 0
Press any key to continue . . .
```

Guidelines for Solution:

Save the program using your personal VUID. Your VUID will therefore appear at the top of the screen.

Best of luck!

NOTE: Do not put any query on MDB about this assignment, if you have any query then email at cs304P@vu.edu.pk. Furthermore, if any student is found cheating by any other student or from online forums then he/she will be awarded ZERO right away and strict disciplinary action will be taken against the student.

Deadline: Your assignment must be uploaded/submitted on or before 29 August 2024.
